

SHIVA IMPEX

THE COLOR YOU DESIRE WE DELIVER

MANUFACTURER OF ALL TYPES OF **MASTERBATCHES**

Innovative Masterbatch Solutions for the Plastics Industry

Additive | Color | White | Black | Filler

ABOUT OUR COMPANY

SHIVA IMPEX is a trusted leader in masterbatches manufacturing, delivering advanced coloring and additive solutions to the plastics industry for over **10 years**.

We specialize in the development and production of high-quality **Masterbatches**. It is one of growing company of india. Located in Daman (Western India), where manufacturing unit, product development and application facilities are present manufacturing capacity of more than 4000 MT per annual, we produce masterbatches for polyolefines including **HIPS, PET, PBT, EVA, ABS, PC** etc.

Shiva Impex firmly believes in To give the customer the best quality
‘FIRST TIME’ ‘EVERY TIME’ & ‘ON TIME’

Our Mission

To engineer and deliver high-performance masterbatch solutions that empower our clients to create superior plastic products — through innovation, technical precision, and unmatched service excellence.

Our Vision

To be a global leader in polymer additives and color technologies, recognized for quality, sustainability, and deep customer collaboration — shaping the future of the plastics industry with intelligent, responsible solutions.

Manufacturing & R&D Excellence

▶ State-of-the-art Production Facilities

Equipped with high-capacity twin-screw extruders for precision compounding.

▶ Advanced R&D Laboratory

Enabling rapid color matching, additive development, and application testing.

▶ Strict Quality Assurance Protocols

Ensuring batch-to-batch consistency through real-time process monitoring and final product validation

PRODUCTS & SERVICES

INNOVATIVE MASTERBATCH SOLUTIONS FOR THE PLASTICS INDUSTRY

We offer a complete range of high-quality **Masterbatches** engineered to enhance plastic performance, reduce cost, improve processability, and deliver outstanding color and consistency across all major polymer systems.

Our formulations are optimized for a wide range of thermoplastics including **PE, PP, PS, ABS, PET**, and engineering resins.

Additive Masterbatch

Enhances product properties and processing efficiency.

- ▶ Customized Additives
- ▶ UV, slip, PPA, Antioxidant etc.

Applications: Films, appliances, agri-films etc.

Color Masterbatch

Custom-matched shades with high dispersion and durability.

- ▶ Vibrant & accurate colors
- ▶ Food-grade & UV-stable options

Applications: Packaging, consumer goods, films etc.

Pet Masterbatch

Functional enhancements for durability, processability, and regulatory compliance

- ▶ Accurate color matching
- ▶ Smooth surface finishing

Applications: PSF & POY, Preform, Bottles etc.

White Masterbatch

High-opacity solutions for film, injection molding, extrusion, and blow molding

- ▶ High loading (up to 82%)
- ▶ Excellent opacity & gloss

Applications: Films, Injection/Blow Moulding etc.

Black Masterbatch

Superior jetness, UV stability, and conductivity options

- ▶ Carbon black & specialty blacks
- ▶ Conductive & non-conductive grades

Applications: Film, Injection Moulding, PSF etc.

Transparent Filler Masterbatch

Functional enhancements for durability, processability, and regulatory compliance

- ▶ Dimensional control
- ▶ Improves stiffness & reduces cost

Applications: Injection molding, woven sacks & films

APPLICATIONS

● Injection Molding

● Rotomolding

● Extrusion Molding

● Non Woven

● Blow Molding

● Film Extrusion

● Fiber & Filament

WHY PARTNER WITH US

At Shiva Impex, we don't just supply masterbatches — we deliver customized solutions, technical support, and a commitment to consistent quality. With a global mindset and local agility, we help our clients shape the future of plastics with confidence.

GET IN TOUCH

We're passionate about our products as well as our customers and it shows in the level of service that we provide. We're always happy to help find the solution for your needs. If a solution doesn't already exist, we'll create a new solution that resolves your issue.
